

Gianluca Iannucci received an European Ph.D. in Economics at University of Florence (2016), a M.Sc. in Economics at Sapienza University of Rome (2012), and a B.Sc. in Economics at Second University of Naples (2008).

He was Research Assistant at University of Siena (2015) and awarded a three years Ph.D. scholarship from University of Florence. Moreover, he was a Ph.D. visting at CERDI (Centre d'Etudes et de Recherches sur le Developpment International) at University of Auvergne, Clermont-Ferrand, France.

Gianluca presented his works in several conferences, in Italy and abroad, organized by European and Italian Association Environmental and Resource Economists (EAERE and IAERE), Italian Association of Agricultural and Applied Economists, and International Initiative for Promoting Political Economy.

At University of Florence he was Teaching Assistant of International Economics and Agricultural Economics at M.Sc. in Economics and Development, of Microeconomics at M.Sc. in Engineering for Environmental Protection, and of Economics at M.Sc. in Law.

His main research interest is economic dynamics applied to environmental issues, via modelling two-sector growth models and evolutionary games. His first publication is: “Antoci, A., Galeotti, M., Iannucci, G., Russu, P., 2015. Structural change and inter-sectoral mobility in a two-sector economy. *Chaos, Solitons & Fractals* 79, 18-29”
